

Protect your iStorage drive from malware infection with iStorage DriveSecurity™ Antivirus powered by NOD32

Powerful Antivirus Protection for your Secure Drive

iStorage DriveSecurity powered by the award-winning ESET NOD32® is a powerful antivirus software that's installed on and runs directly from your iStorage secure drive or any other USB data storage device, preventing malware from infecting your drive.

iStorage DriveSecurity automatically scans, detects and eliminates Viruses, Spyware, Trojans, Worms, Rootkits, Adware and other Internet threats before they can be transmitted onto your USB drive.

So whether it's sensitive data, pictures, music, videos or any other documents that you commonly store and share, iStorage DriveSecurity ensures that your USB drive is always malware free.

Auto Malware Removal & Updates

When malware is detected, the infected file is automatically deleted and the user is notified. The detection module (virus signature database) is updated automatically on the drive every hour.

Host Free Installation

Designed to run without installation, the powerful antivirus engine lives in and runs directly from your iStorage secure drive.

Smart & Powerful Protection

Intelligent heuristic malware detection is capable even against unknown threats. It stands as a barrier to protect your USB drive from being compromised by malware resident on the host computer.

Easy to Use

iStorage DriveSecurity will launch when you plug in your iStorage drive into a powered USB port and will not interfere with the host computer's own antivirus software. No admin rights are required.

Start Your Free 30 Day Protection Today

To keep your iStorage or any other USB drives free of malware, why not download our free 30 day DriveSecurity trial and extend your antivirus protection beyond the firewall. Download your free 30 day trial here, <https://istorage-uk.com/product/drivesecurity> or contact us by phone or email and we will be happy to help.

Choose Your Licence

How many licenses do I need to purchase?

You can buy a single license which works for one iStorage or other USB drive. Your license is per portable USB device, if you have more than one USB drive, you will need to purchase a license for each device. For any special requirements, please contact us at iStorage.

System Requirements

Operating Systems

DriveSecurity runs on any Windows 10, Windows 8, Windows 7, Windows Vista, Windows XP or Mac OSX v.10.9.x - 10.12.x.

Drive Space

DriveSecurity needs approximately 300 MB of space on USB secure drive.

Compatible iStorage Drives

DriveSecurity can be used on any iStorage device, from the datAshur flash drive range to the diskAshur Hard Drive & Solid State Drive range
